To Whom It May Concern,

I write to request a copy of all: (1) correspondence between Austen Heinz, Antony Evans, Dr. Omri Amirav-Drory, Dr. Kyle Taylor, and Dr. Alexander Krichevsky; (2) any correspondence, records, and documents regarding Glowing Plants, Genome Compiler, Cambrian Genomics, and BioGlow LLC.

If your agency does not maintain these public records, please let us know who does and include the proper custodian's name and address.

We seek a fee waiver as an Oregon nonprofit organization and environmental advocacy organization based in Eugene, Oregon working to secure sustainable land and secure property rights for all. We accomplish this by enforcing all environmental and land-use laws and regulations through law and science.

If you choose to deny my request, please provide a written explanation for the denial including a reference to the specific statutory exemption(s) upon which you rely. If some of these records are disclosable and others are exempt, please provide the disclosable records and let us know the exemption(s) preventing disclosure of the rest.

Please understand that we seek these records for the purposes of public interest, and we hope that the spirit of openness in government will prevail.

Thank you for your assistance.

Sincerely,

/s/ Melissa D. Wischerath
